

WirelessCommunication
/DeviceAddress.h

```
graph TD; A[WirelessCommunication /DeviceAddress.h] --> B[vector]; A --> C[stdint.h]
```

The diagram illustrates a header file dependency. A central box at the top, labeled 'WirelessCommunication /DeviceAddress.h', has two blue arrows pointing downwards to two separate boxes. The left box is labeled 'vector' and the right box is labeled 'stdint.h'. This indicates that the 'WirelessCommunication /DeviceAddress.h' header file includes both the 'vector' and 'stdint.h' headers.
